

REMARKS/ARGUMENTS

Claims 1-13, 17-19, and 91-100 were examined. All examined claims were rejected solely for obviousness-type double patenting over U.S. Patent No. 6,287,290. Such rejection is overcome by submission of the enclosed Terminal Disclaimer. Thus, Applicants believe that all examined claims are now in condition for allowance.

Applicants note that a minor inconsistency in original claim 17 has been corrected. In particular, the dependency has been changed to independent claim 1 and a lack of antecedent basis for the term "plug" has been corrected.

If for any reason the Examiner believes that a telephone conference would in any way expedite prosecution of the subject application, the Examiner is invited to telephone the undersigned at (650) 326-2400.

Respectfully submitted,

James M. Heslin
